NOVEMBER 14, 15

# PANTHER SENTINEL

HARTNELL COLLEGE

Your 'Weathermen'  
Say Stormy Today,  
Pax Tomorrow

Volume XXXIX

Salinas, California, Friday, November 14, 1969

Number 9

■ WHO PAINTED the Panther blue (or is it red?)? Certainly not the upstanding gentleman pictured. Is this what college is all about: van-

dalism motivated by that nebulous force, school spirit. Alas, poor Panther. That you and college mentality should lie so low. (Sherer photo)

## THE CONTEST:

# A Chance For Immorality

Well, gang, here it is. The outasight, fantabulous, super-heavy contest that you've all been waiting for.

The idea is a contest in three categories—best journalistic photograph, best editorial cartoon, and best feature story. So nobody's left out. If you can write a few legible paragraphs, snap an out-of-focus shutter or make a magnificent doodle, you might be the one to take home the unbelievable first prize.

### Rules:

1. All entries must be in to the Panther Sentinel office, Room 13, by December 1, signed please.

2. Contest is open to any Hartnell student. (We've got to draw the line somewhere. We certainly don't want Herb Caen, Jules Feiffer and Peter Keetman entering, do we?)

3. All entries must be on the subject of Hartnell or the immediate surrounding community. (No reports on haddock fishing in Alaska or photos of Yosemite Falls, please.)

### Prizes:

First prize photography: One 7½x9¼ picture of Richard Millhouse Nixon, suitable for framing or whatever else you wish to do with it. (A duplicate picture will be awarded as first prize in the cartoon contest.) In addition, first prize includes two rolls of 35mm negatives, one of Leguna Seca and one of the Hartnell parking lot at lunch time (or are they both of the Hartnell parking lot at lunch time?) plus

whatever old Sentinel photos you can talk the editor out of.

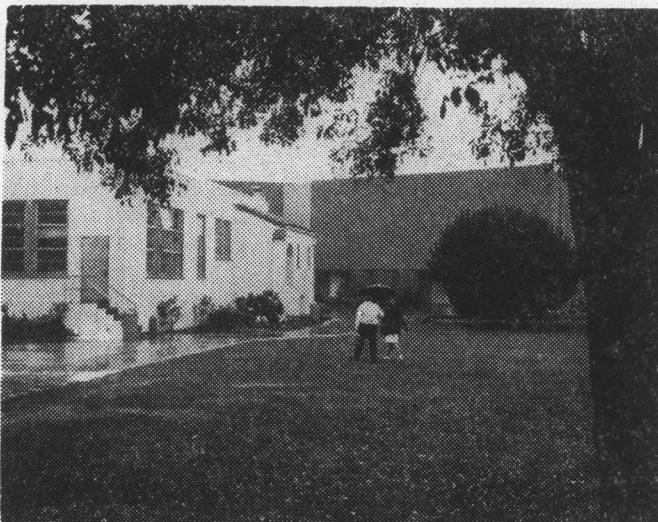

First prize cartoon: In addition to the prize mentioned above, first prize includes two original Andy Evans cartoons (including that beautiful, controversial SPD drawing) and one "Little Man on Campus" print. (Wow.)

First prize feature story: Three press releases from the "Office of the Governor" (two unopened, one rescued from the waste paper can), a reprint from the Congressional Record of George Murphy's speech on "Role of Communists in College Campus Disturbances" (just for laughs) and the original cartoon publi-

cation entitled "Budget Message of Ronald Reagan, Governor of California and Department of Finance Letter of Transmittal: 1969-70 Budget."

Turn your entries in today and become one of the lucky prize winners.

■ "WHEN THE RAIN FALLS they run and hide their heads." (Lennon-McCartney?)

## CHICANO ORIGIN:

# Chichimec or Chihuahua

Ed. note: This article was solicited from Mr. Paul Ashenbrenner, the instructor of the Mexican-American history class. It is an expression of two views regarding the origin of the word "Chicano."

The origin of the word "Chicano" cannot be traced to one person or any time period. I have heard many different theories as to the origin of the word, but I will relate two of the more credible theories.

The first theory comes from a Chicano in San Francisco who is active for La Causa. He maintains that the word stems from the Chichimec culture in Mexico.

In the history of the Aztecs, they originated from a place in Northwestern Mexico which they called Atzlan between 1100 and 1300 A.D. They began a historic journey southward to settle at a place where they

found an eagle with a serpent in its mouth sitting on a cactus. While on this journey, they took part in the overthrow of the Toltec civilization.

Chicano became, thereafter, a term applied to a number of barbarian invaders from the north.

In Spanish, Chicimec is called Chichimecano and from this word the shortened form Chicano may have evolved.

The second theory is that the term "Mexicano," which is Spanish for Mexican and Chihuahua, which is a state and also the name of the largest city in northern Mexico have become amalgamated into the term Chicano.

If this theory of the origin is true, then this term was probably used by Mexican-Americans in Texas in reference to themselves.

## Ready or Not — a Moratorium

Sorry to have bothered to tweak your curious or interested nose (with a pen of stupid optimism) by the promise of a good moratorium discussion last Thursday. That supposition was merely an idealistic, nonsensical expression of the "frustrating hopefulness" felt while sitting in on the previous Tuesday's so-called discussion. The meeting swayed from the "moratorium value" to Vietnam, again. The expected larger crowd was there. So was the moderator, Mike Stark. Several questions were presented by the audience, but went unanswered. The "echo" of peace was still there. The only thing

that was missing was a healthy discussion.

Nevertheless, the Student-Faculty Discussion Group is sponsoring a Vietnam moratorium today. The presentation will begin at 11 a.m. on the lawn behind the student union. If it rains the group will meet inside the student union. Poems, short essays, and songs will be offered. Everyone is welcome. All are asked to bring their own comments for presentation to those present. The meeting will be moderated by Dr. Howard M. Feder. There is also a candlelight vigil planned for tonight. The vigil will begin at 9 p.m. in the student union.

## Roving Reporter

QUESTION: Do you think the Moratorium is accomplishing its purpose on Hartnell campus?

Robert B. Johnston: I have not become aware of its purpose on Hartnell, that does not mean that I approve or disapprove of a moratorium meeting. It just means that I am not aware of its purpose. I believe in the rights of people to meet and discuss their grievances. This right is protected in the first amendment of the Constitution.

Manny Escobar: I don't really follow it that much, so I can't say.

James Shumaker: The discussion of the moratorium and the accomplishment of the purpose is a mute point when applied to the Hartnell campus alone.

The moratorium has little significance unless viewed as a nationwide gesture of public dissatisfaction with the status quo in Vietnam.

Gail Vincent: It seemed to me the reason for having the moratorium was a form of mourning over the men who have given their lives in Vietnam. The part of the moratorium in which I acted seemed not to even get out of the state.

# HARTNELL GAVE 'EM HELL 42-0

The Hartnell Panthers played their finest game of the year last Saturday night as they took on the Rams of Gavilan College and left no doubt that the Coast Conference championship will be decided between the Panthers and Monterey Peninsula College.

The Panthers met the best that the Rams had to offer and came out on top by a score of 42-0.

"It was the best game the defense has played all year. They got the ball for the offense and (Jim) Erickson moved right down the field." This was the way Coach Arvin Smith described the game.

Manuel Gomez played an outstanding game on defense as the Rams thought they had five men in their backfield. That fifth man was Gomez and he kept grabbing the ball carrier. Gomez was personally responsible for the Rams losing more than 23 yards.

#### Passing Effective

One of the biggest factors of the night was all-American candidate Rex Smith. Although Smith caught only two passes, one for a touchdown, he was double-teamed all night and this left a big hole in the Rams' defense. That hole was filled by the capable hands of John Ama-

ral, this week's PICK OF THE WEEK.

Amaral caught six passes for 96 yards with several of them going for first downs to keep the Panther drives alive. John had a great night on the ground also as he ran for 127 yards in 10 carries for a 12.7 yard average.

#### Long Runs

On the first play of the fourth quarter, Amaral took off around the right side and, like he did last week, cut back to the left and outran the Ram defense for an 88 yard touchdown gallop.

Pete Villarreal was not to be outdone in the long-run depart-

ment. A few plays after Amaral's dash, Villarreal shot through the Ram defense from the Panther 39 yard line and ended up in the end zone with a 61 yard run.

Larry Crawford showed he could go for the long gainer also. L.C. started up the middle, running over opponent tacklers on his way as it his custom, and just kept on going for 50 yards before he was hauled down from behind. Crawford carried the ball 21 times and gained 149 yards for a 7.1 average.

Jim Erickson had a good night in the air as he completed 11 passes in 19 attempts for 159 yards.

#### Defense Outstanding

On the defensive side the Panthers held the Rams to 54 yards in the first half and allowed only 161 yards all night as they turned in the outstanding game Coach Smith spoke of. It was a team effort that stopped the Rams with the great individual effort by Gomez. The entire defense played an outstanding game.

The Panthers will meet MPC tomorrow night in Monterey for the right to represent the Coast Conference in the state playoffs.

Let's all get out and support the team.

## Oh, No You Don't!

Chip Campion puts the grab on a Gavilan back that has tried to come around his end. Mike Paris (51) is coming up to lend a hand (or shoulder) if Chip needs any help. The Panthers dealt the Rams a humiliating defeat 42-0 as the Panthers played their best game of the year.

## M.P.C. Next Crown at Stake

The Coast Conference championship will be on the line tomorrow night when the Hartnell Panthers take on the Monterey Peninsula College Lobos in Monterey.

Both teams are 4-0 in league play and it should prove to be the toughest contest of the year for both teams.

#### Tune-ups

The Lobos tuned up for the game by beating Menlo by a score of 72-8 while the Panthers were putting down Gavilan 42-0. MPC beat the Rams the previous week 28-6.

The Panthers will have to play as good a game against the Lobos as they did against the Rams in order to come out on top. But the Panthers' coaching staff will be working hard all week to bring the team up to the occasion. The psychological attitude of the team will play a big part in deciding the winner.

#### Passing and Rushing

The Panthers will rely on the passing of Jim Erickson and the receiving of Rex Smith along with the running of Larry Crawford, John Amaral and Bob Echeverria for their offensive thrust and the sharp defensive play of Manuel Gomez Mike Paris and Ron Lucas.

On Veterans Day, the Panthers journeyed to the Monterey County Juvenile Hall for a morning workout for the benefit of the boys and girls confined there. The children enjoyed seeing the Panthers and talking to some of them.

#### Blocking Emphasized

The blocking assignments of the offensive line are being emphasized this week in practice sessions and the entire team is working hard and will be ready for the MPC game.

#### Praise for Rooters

The Hartnell fans did a good job in Hollister last week and showed the team they were behind them. It is hoped that the fans will give as good a performance in Monterey tomorrow night.

Support from the stands helped the Panthers do the job in Hollister and it can help them in Monterey as well.

Let's all get out to the game and show our support.

**GIVE 'EM HELL, HARTNELL, GIVE 'EM HELL.**

## Pick of the Week

JOHN AMARAL

John Amaral caught six passes for 96 yards and ran for 127 yards on 10 carries for an amazing 12.7 yards per carry Saturday night to lead the Hartnell Panthers to a 42-0 win over the Gavilan Rams and grab PICK OF THE WEEK honors for himself.

The speedy halfback took off on an 88 yard run for one TD and caught a pass for another to add to the Panther scoring.

John is a history major and graduated from Palma High School in 1967. He has not yet decided on a four year school but whichever one he chooses will make their football coach very happy.

Congratulations, John, on an outstanding performance.

## Harriers Upset

The Hartnell Panthers' cross country team, dual-meet champions of the Coast Conference, were upset by the Monterey Peninsula College Lobos last Saturday in the conference finals held on the Gavilan College course.

Hartnell's Jeff Berryessa took first place honors with a time of 23:30 but the next Panther to cross the finish line, Phil Garcia,

was in fifth place. Glen Walder placed 9th, Bryan Kujala 15th and Kenn Mitchell 18th to end the scoring for the Panthers.

The final score of the contest was MPC 33, Hartnell 48, Ohlone 55, and Cabrillo 87.

The Panthers will now go to the Northern California Championships to be held at Yuba College tomorrow.

## Pantherette Victory Over Monterey

Hartnell College Pantherettes, the women's basketball team, won their second victory last week against the Fort Ord Wacs with a score of 48-13. Jackie Tuttle, the lightening streak of the team, scored 21 points for Hartnell. Barbara Brunet scored 12 points and was most reliable in hitting her layup shots. Linda Peverini was third in scoring.

The week before, Hartnell played against M.P.C. and won 43-33. At that game Barbara

Brunet scored 18 points, and Jackie Tuttle and Linda Peverini 10 points.

The women are showing excellent team work and Mrs. Middaugh, coach for the Pantherettes has scheduled games at Hartnell on Nov. 24 against M.P.C., Dec. 2 against Cabrillo, and Dec. 5 against San Jose City College. All home games will be played at 5 p.m. in the men's gym.
